

Coastal Erosion, Milk and Cookie Style

**Dip your chosen
cookie 'rock' into the
milk with a steady
repeated motion.
What happens?**

**What would happen
if you interfered
with the coastline?
How does building
or removing change
the landscape?**

**How do the different
cookie types resemble
rocks at the seashore?**

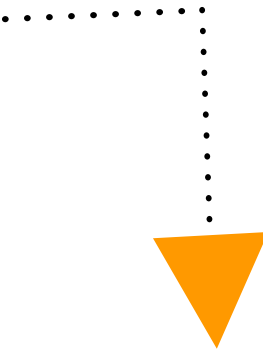

**How do they react to
being washed with
milk waves?**

**Wash waves against the
cookie shoreline by
tilting the pan with a
steady repeated motion.
What happens?**

Pretty as a Picture: Neighborhood Viewers

**Decorate your viewing
frame with colors,
objects, or people and
places you love.**

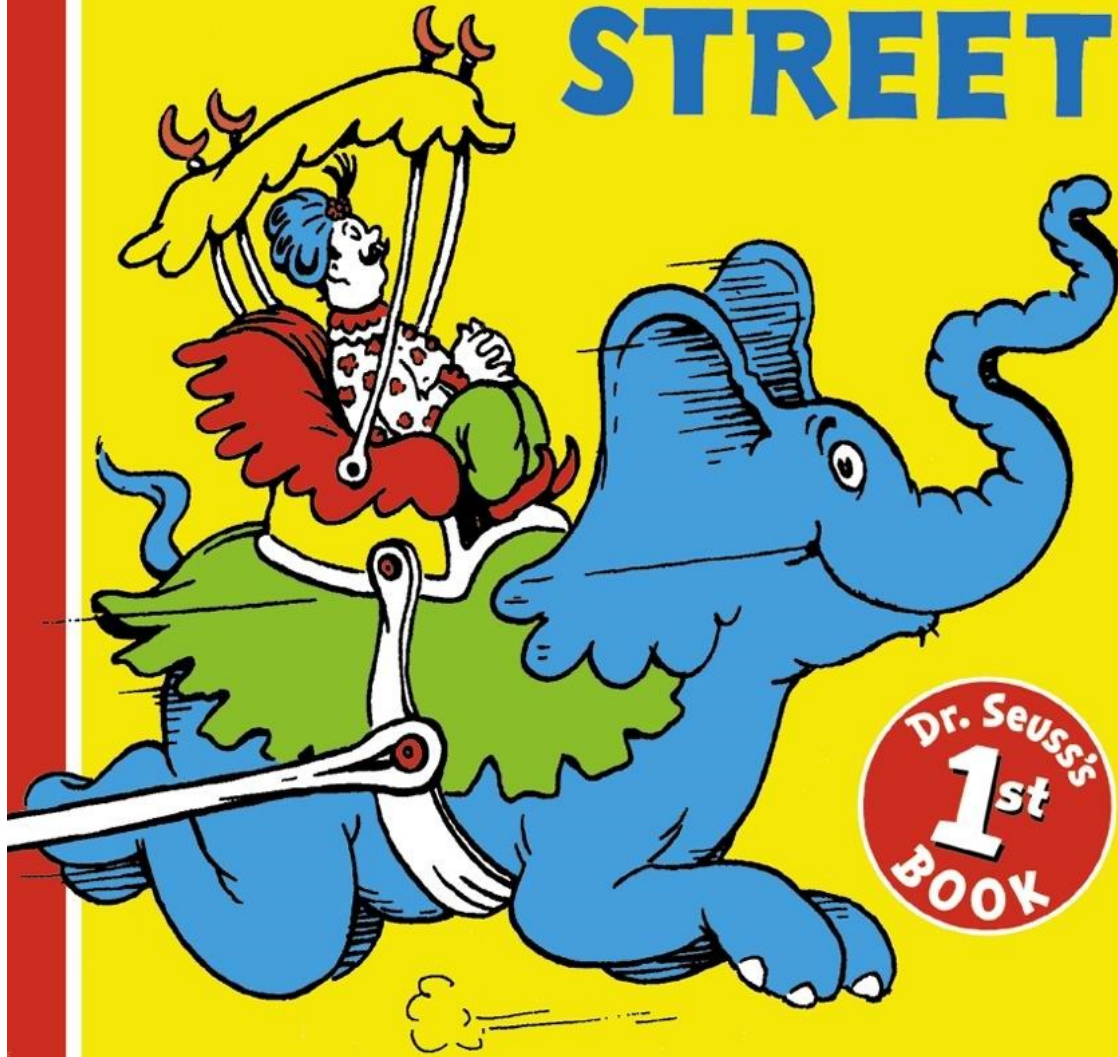

**What happens if
you tilt your
viewing frame on a
diagonal? How does
it change what you
see?**

**What happens if you
bring your viewing
frame very close to
an object?**

**What if you look at
something far away?**

**Use your viewing frame
to isolate an object or
scene in your
neighborhood, and then
sketch or describe what
you see.**

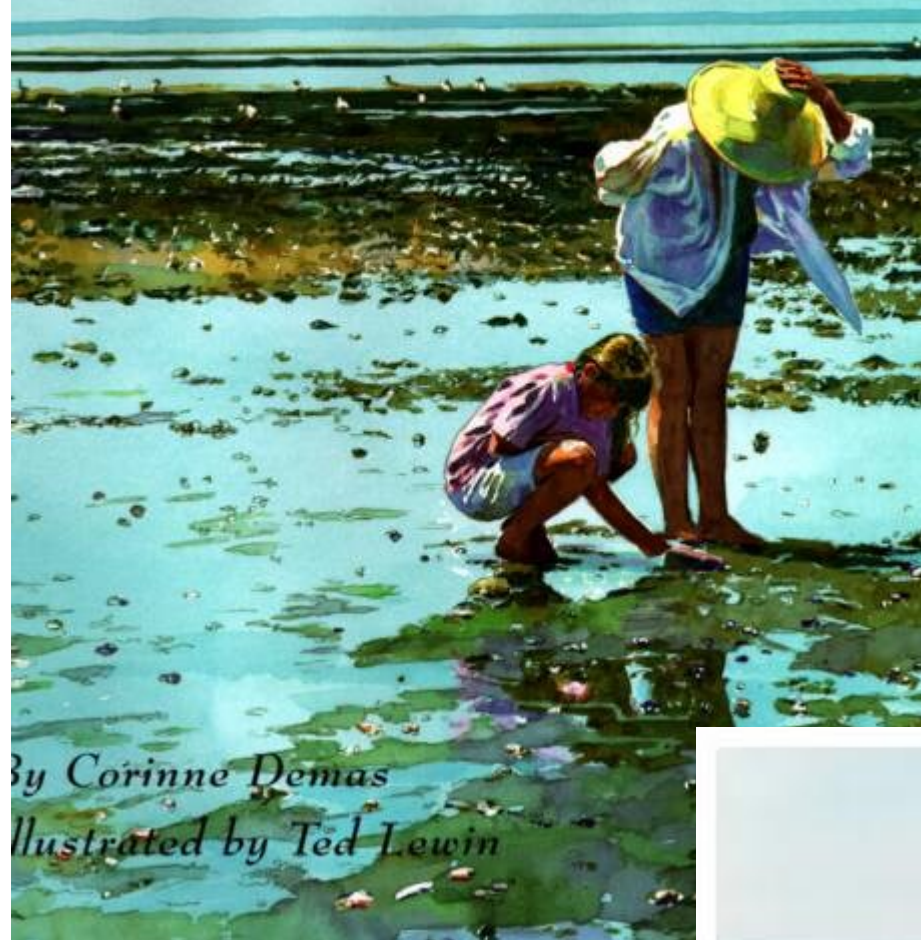

And to think that I saw it
on **MULBERRY
STREET**

By Dr. Seuss

What do you see on your walk home? Tell it, Draw it!

The Disappearing Island

**Do all beaches look the same? How do they change?
What happens to a beach in a storm?**
